

## Overview of the Chita Thermal Power Station Units 7 and 8 Construction Plan

1. Name: Chita Thermal Power Station Units 7 and 8 Construction Plan

2. Location: 23 Kitahama-machi, Chita-shi, Aichi

3. Construction Plan:

Units to be decommissioned

| Unit No. | Generation Capacity | Generation Type                             | Fuel | Start of Operation | Planned Decommissioning |
|----------|---------------------|---|------|--------------------|-------------------------|
| Unit 1   | 529MW               | Combined cycle<br>(Repowering)<br><br>Steam | LNG  | February 1966      | FY2021                  |
| Unit 2   | 529MW               |   |      | January 1967       |                         |
| Unit 3   | 500MW               |   |      | March 1968         |                         |
| Unit 4   | 700MW               |   |      | March 1974         |                         |
| Unit 5   | 854MW               |   |      | March 1978         | FY2026                  |
| Total    | 3,112 MW            |   |      |                    |                         |

Units to be newly constructed

| Unit No. | Generation Capacity | Generation Type | Fuel | Start of Operation      |
|----------|---------------------|-----------------|------|-------------------------|
| Unit 7   | Approx. 650MW       | Combined cycle  | LNG  | August 2027 (planned)   |
| Unit 8   | Approx. 650MW       |                 |      | December 2027 (planned) |
| Total    | Approx. 1,300MW     |                 |      |                         |

Reference: Units generating thermal power after the plan has been carried out

| Unit No. | Generation Capacity | Generation Type                                      | Fuel | Start of Operation      |
|----------|---------------------|--|------|-------------------------|
| Unit 6   | 854MW               | Combined cycle<br>(Repowering)<br><br>Combined cycle | LNG  | April 1978              |
| Unit 7   | Approx. 650MW       |  |      | August 2027 (planned)   |
| Unit 8   | Approx. 650MW       |  |      | December 2027 (planned) |
| Total    | Approx. 2,154MW     |  |      |                         |
